

Green DESOCLEAN™

One-Step Aircraft Wash & Wax

Key Product Benefits

Desoclean™ Green One-Step Aircraft Wash & Wax is a unique cleaning product designed for use on all aircraft surfaces. Combining exceptional cleaning power with a high gloss finish & durable protective barrier, the hi-tech formulation is fast acting and easy to use with no water required.

Protects Coating Appearance

- Developed jointly with PPG to preserve aerospace coating appearance
- Formulated to extend gloss life and reduce color shift over the life of the coating when used as recommended
- Non-abrasive formula
- Leaves a durable protective barrier
- Provides unique UV protection

Reduces Cost

- Cleans and waxes in one application
- Eliminates the cost and labor of applying a separate wax product
- Reduces drag and maximizes fuel efficiency by creating an ultra smooth surface

Simple & Easy to Use

- Quickly removes all common surface contaminants
- Use on painted or unpainted surfaces
- Simple wipe on, wipe off application
- No specialized equipment needed
- For use in all climatic conditions

Approvals

- Conforms to Boeing D6-17487 requirements
- Conforms to AMS 1650C requirements*
- Approved by PPG Aerospace for use on gloss coatings

Environmentally Responsible

- Water based
- No process water required
- Not regulated for transportation
- Reduced air drag resistance = lower CO² emissions

PPG Aerospace
Surface Solutions

* Except for viscosity

Directions for Use:

For moderately soiled surface conditions:

- Shake container well and apply Desoclean™ Green sparingly to the surface in circular overlapping motion either by hand or using a mop head and microfibre cloth.
- Allow the product to dry to a haze, this should take no more than 2-3 minutes. Product tested in use to 149°F /65°C (panel and air temperatures) with no adverse effects.
- Buff off with a clean, dry microfibre cloth or towel. No rinse is required. For best results clean slowly, section by section.

For heavily soiled surface conditions:

- For heavy grease, oil and hydraulic oil build ups, repeat above process

Note: Will not remove below-surface hydraulic / engine oil stains

Coverage Guide:

1 Gallon of Desoclean™ Green will cover an area approximately 750 -1500sq ft (70 - 140m²) depending on contamination level of surface being cleaned.

Desoclean™ Green

Part Numbers:

1 Gallon: **90210-1**

5 Gallons: **90210-5**

55 Gallons: **90210-55**
