

Semco® Customized Solutions

Semco® Tools for Sealants and Adhesives

What are Semco® Roller Nozzles?

Semco® Roller Nozzles are designed to apply adhesives and sealants evenly over a wide area of substrate. Semco® Roller Nozzles are affixed to the end of an extrusion gun and provide an effective addition to hand, spatula, and brushable applications.

Why Consider Semco® Roller Nozzles?

Faster

- Reduces time to apply sealant as compared to alternatives

Improved Efficiency

- Less waste is generated due to the efficient allocation of sealant

Improved Quality

- Ensures an even layer of sealant or adhesive over a given substrate

All recommendations, statements, and technical data contained herein are based on tests we believe to be reliable and correct, but accuracy and completeness of said tests are not guaranteed and are not to be construed as a warranty, either expressed or implied. User shall rely on his own information and tests to determine suitability of the product for the intended use and assumes all risks and liability resulting from his use of the product. Seller's and manufacturer's sole responsibility shall be to replace that portion of the product of this manufacturer which proves to be defective. Neither seller nor manufacturer shall be liable to the buyer or any third person for any injury, loss, or damage directly or indirectly resulting from use of, or inability to use, the product. Recommendations or statements other than those contained in a written agreement signed by an officer of the manufacturer shall not be binding upon the manufacturer or seller.

Semco® Roller Nozzles Technology

The nylon nap on the Semco® Roller Nozzle is made specially to be compatible with a wide range of sealants and adhesives. The roller base is precision molded from chemically resistant material that can be solvent cleaned for re-use with replacement rollers.

Typical Uses

Roller nozzles are ideal for the application of faying surface sealants. Their 1/4 NPT male threaded end can be used with any of the Semco® line of disposable cartridges and Semkit® packages.

Available Sizes

Choose between 1" Roller Nozzle Assemblies (Part Number 232693) and 1" Replacement Rollers (Part Number 232701) or 2" Roller Nozzle Assemblies (Part Number 232692) and 2" Replacement Rollers (Part Number 232702).

High Viscosity Materials?

Semco® Roller Nozzles are offered with an increased dispense orifice size of .060" that can be used with thicker materials. This is significantly larger than standard products that offer a 0.38" outlet.
